

## New knives for Tetra Damrow™ Double-O vat

Tetra Navigato™ customized service solutions

### Minimizes losses, maximizes performance, control and flexibility

With an improved design and new material, an upgrade of the knives on your Tetra Damrow Double-O vat improves sharpness, strength, and cutting and stirring performance. This cuts fines losses up to 20% and fat losses up to 12%. The new design also facilitates flexible knife configuration as well as the easy removal and re-sharpening of vertical knives.

### Benefits

- Reduced fat and fines losses
- Improved control of curd moisture content
- Improved knife performance
- Flexible knife configuration

## New vertical knife design and operating principle

- New material AISI 301, improves sharpness and strength
- Vertical knives attach to horizontal knives with special attachment holes
- Knives are fixed in position with a lock pin
- Easy-to-remove lock pin for easy removal of vertical knives
- Flexible knife configuration option with extra holes in horizontal knives
- Available as an upgrade for existing Damrow Double-O vats
- Included with all new Tetra Damrow Double-O vats

## Our improvement services maximize your operational performance

Improvement services deliver quantifiable and sustainable improvements in your operational performance, such as reduced waste, increased uptime, enhanced staff capability, and reduced operational cost.

## Tetra Navigato customized service solutions

The best way to get the most out of your production, and your business, is with our Tetra Navigato customized service solutions. Our complete range of lifecycle services maximizes your uptime, reduces your costs, enables you to reach and sustain your desired performance with ease. Wherever you are located, our expert technicians are always close at hand for complete lifecycle support and maximized performance today and long-term.

Visit [tetrapak.com/servicesolutions](http://tetrapak.com/servicesolutions) for more information on this and more services that enable your full lifecycle performance.
